# SS Physics I “Vocabulary to Know”

## Kinematic Equations

|     |  |      |  |
|-----|--|------|--|
| No. |  | Name |  |
|-----|--|------|--|

in four digits

| No. | English               | remarks | Japanese | check |
|-----|-----------------------|---------|----------|-------|
| 1   | kinematic             |         |          |       |
| 2   | equation              |         |          |       |
| 3   | formula               |         |          |       |
| 4   | constant acceleration |         |          |       |
| 5   | straight line         |         |          |       |
| 6   | effective             |         |          |       |
| 7   | efficient             |         |          |       |
| 8   | variable              |         |          |       |
| 9   | dimension             |         |          |       |
| 10  | initial               |         |          |       |
| 11  | final                 |         |          |       |
| 12  | axis                  |         |          |       |
| 13  | horizontal            |         |          |       |
| 14  | vertical              |         |          |       |
