

## SS Physics I “Vocabulary to Know

## Radio Astronomy

No.		Name	
-----	--	------	--

No.	English	Japanese	No.	English	Japanese
1	explore		26	tip	
2	invisible		27	stable	
3	universe		28	maintenance	
4	telescope		29	factor in	
5	faint		30	optical telescope	
6	spectrum		31	galaxy	
7	radio wave		32	planet	
8	infrared		33	quasar	
9	the visible		34	black hole	
10	ultraviolet		35	neutron star	
11	X-rays		36	lighthouse	
12	gamma-rays		37	periodic	
13	electromagnetic radiation		38	extraterrestrial	
14	wavelength		39	orbit	
15	crucial		40	general relativity	
16	radio astronomy		41	gravitational lens	
17	terrestrial		42	space-time	
18	map		43	rippled glass	
19	pulsar		44	distorted	
20	remnant		45	fading glow	
21	explode		46	Big Bang	
22	ridiculously extreme		47	cosmic microwave background	
23	spin		48	dull orangey-red	
24	hydrogen		49	expand	

25	spiral structure		50	Planck spacecraft
